

Assumption Change Control Sheet

Test	1a, - 1f, Space heating Tests
Assumption	14. Test sample duration

Change Originator	Tom Naughton
Change Request No.	012
Date of Request	03/01/2020
Proposed Change to Assumption?	No

Proposed Approach

300 seconds

Rationale (underlying basis for assumption)

The duration was based on observations during the six original SBRI HIU tests. It was evaluated that this was sufficient time to capture any cyclical variability in primary return temperature observed from the tested HIUs.

All HIUs tested since have not shown any greater variability in primary return temperatures and therefore, there is no rationale for changing this value.

Impact of Change (e.g. implications for test rig)

N/A

CHANGE EVALUATION

Date Evaluated	23/07/2020
Additional Information Required?	N
Modification to Proposed Approach?	N
