PPE

- Ensure all PPE/ RPE is cleaned, with an antibacterial wipe or if disposable thrown away each day. This is consider include phone and keys
- Waste should be bagged and disposed of in the correct way
- Do not go home in your work cloths or footwear as this could spread the virus
- Do not wear your PPE on public transport to reduce the spread of site materials, substances and the virus particularly important with reusable RPE

As workforce numbers are currently down by 10%, ask, can you still work safely?

Will critical safety systems still work with less staff?

Consider can you still work safely?

Are there suitable and sufficient first aid facilities on site?

Do you have suitable, sufficient and appropriate level of supervision if key staff are off sick?

Do site staff have an office contact?

Can staff still travel on public transport?

Public Transport

- Try to keep 2 meters away from each other where possible
- Your site clothes must not be worn on public transport.
- Regularly use antibacterial wipes
- Try not to touch your face
