

## Coronavirus Job Retention Scheme (CJRS) Guidance – HMRC Portal

As the CJRS is extended to the end of June 2020, the HMRC portal to support the CJRS is now live and expected to deal with circa 450k claims an hour – handled by an HMRC workforce of 5,000.

As things develop with the system we expect a fair amount of guidance/updates to be released over the coming days and will share these with you as soon as anything becomes available.

Meanwhile, the guidance below was released over the weekend/early this morning and is designed to assist employers as they navigate through the CJRS process.
